Air & Water Solutions

The GE Appliances Air & Water Solutions team is committed to serve our plumbing, heating, HVAC and mechanical contractors with innovative products, service, and support that puts our pros and distributors at the center of our business.

Co-ops will gain experience working in a corporate environment and help develop policies & procedures that will be used for organization-wide consumption. Our Co-ops will work in a fast-paced environment that's focused on growth in a competitive industry.

Why You Want This Experience

- Compete in a global environment, with opportunities to network with all sales functions within GE Appliances
- Gain in-depth, hands-on product training, serving as a good foundation for the Air & Water Development Program
- Gain experience working with Salesforce and other internal business platforms

"While with the Air & Water Solutions team, I strengthened customer relationships by addressing concerns and identifying opportunities to support contractors. I gained hands-on experience in a fast-paced, innovative environment focused on driving growth and efficiency."
